Summary

Software Engineer with 2+ years of experience in full-stack development, cloud computing, and data engineering. Proficient in Java, Python, React, Angular, SAP, and REST APIs, with hands-on expertise in AWS, Spring Boot, and Agile methodologies. Experienced in developing scalable web applications, database optimization, and microservices architecture. Passionate about solving complex problems and delivering high-performance solutions in a collaborative environment.

Experience

Software Analyst, Capgemini – Pune, India Sep 2022 – May 2024

- Developed and maintained enterprise-level applications using **Java, Spring Boot, and REST APIs**, ensuring high performance and scalability.
- Designed and optimized **SQL database queries**, improving data retrieval efficiency and supporting business intelligence processes.
- Provided technical solutions and troubleshooting for McDonald's POS systems, Kiosks, and Restaurant File Management Systems.
- Worked in an **Agile environment**, enhancing **code quality, deployment strategies, and team collaboration**.
- Improved and added functionalities to an automation tool for **JIRA** and **ServiceNow** integration, streamlining task synchronization.
- Developed data-driven insights and visualization reports using **Power BI**, improving decision-making.

Trainee Software Developer, Capgemini – Pune, India Jan 2022 – Apr 2022

- Developed **microservices-based enterprise applications** using **Java and Angular**.
- Designed and implemented **REST APIs**, ensuring seamless system communication and integration.
- Created and maintained **technical documentation**, ensuring clarity for development teams and stakeholders.
- Worked with **cloud-based testing environments**, including **AWS, Citrix, Virtual Lab, and O365**, optimizing performance.

Software Development Intern, Neuronode Technologies Pvt. Ltd. – Pune, India July 2021 – Sept 2021

- Developed a **Streamlit-based stock portfolio web app** using **Quandl API** to fetch real-time and historical stock data.
- Designed **custom filtering and sorting functionalities**, allowing users to track specific stocks and investment trends.
- Optimized **data retrieval and visualization** for a seamless user experience.

Education

Technische Universität Chemnitz Oct 2024 – Current

- Master of Science (Web Engineering)

Savitribai Phule Pune University Jul 2018 – Apr 2022

- Bachelor of Engineering (Computer)

Certifications

- AWS Certified: Cloud Practitioner
- AWS Certified: Generative AI Essentials
- Capgemini: Entry-Level Developer (level 1 and 2)
- Coursera: Agile Software Development
