I'm a curious software engineer with over 2 years of experience building apps that work, scale, and make life easier. I've worked on everything from automation tools to cloud based systems, and I'm always up for solving problems and learning something new along the way.

TECHNICAL SKILLS

Languages : Java | JavaScript | Python | SQL | C++ | PHP | Bash

Frameworks: Spring Boot | React | Angular | Streamlit | Node.js | Next.js

Tools & DevOps: Jenkins | Git | CI/CD | JIRA | ServiceNow | Power BI | Docker | Postman | Confluence

Data & Analytics: Power BI | Tableau | Pandas | NumPy | Scikit-learn | SQL Databases

Methodologies: Agile | Scrum | DevOps | GitOps

PROFESSIONAL EXPERIENCE

Software Analyst, Capgemini 09/2022 – 05/2024 | Pune, India

- Developed scalable microservices-based enterprise applications using Java (Spring Boot) and Angular (TypeScript).
- Worked with RESTful APIs, JavaScript, HTML/CSS, and Git in Agile environments.
- Integrated JIRA and ServiceNow for task synchronization through automation tooling.
- Created dashboards and reports in Power BI for insights-driven decision-making.

Trainee Software Developer, Capgemini 01/2022 – 04/2022 | Pune, India

- Designed and implemented REST APIs, ensuring seamless system communication and integration.
- Optimized performance in cloud-based test environments using AWS, Citrix, Virtual Labs, and O365.
- Worked in Agile teams with Jenkins CI/CD, improving deployment efficiency.

Software Development Intern, Neuronode Technologies 07/2021 – 09/2021 | Remote, India

- Built a real-time stock analysis app using Python, Streamlit and Quandl API.
- Enabled dynamic stock tracking and real-time profit/loss analysis through interactive visualizations.

EDUCATION

Master of Science – Web Engineering, 10/2024 – present | Germany
Technische Universität Chemnitz

Bachelor of Engineering – Computer, 07/2018 – 04/2022 | India
Savitribai Phule Pune University

PROJECTS

- **Detection of Price Variations of consumable commodities using Social Media and News**
Bidirectional Encoder Representations (Bert) a deep learning model, Data Prediction and Data Analysis
- **Shopping Cart System and Hospital Management System**
Angular, Spring Boot, Hibernate, Swagger, Microservices, Nodejs, MySQL, Java, Postman and OAuth
- **Speech to Sign Language Convertor**
JavaScript, Speech Recognition, Data Analysis And Web Speech API

CERTIFICATIONS

- AWS Certified Cloud Practitioner – AWS
- Generative AI Essentials – AWS
- Agile Software Development – Coursera

LANGUAGES

- English - C1
- German - B1
